

LIFE SPORTS
FINANCEMemorandum Re
L. E. Detwiler

Mr. L. E. Detwiler of New York has presented a memorandum for the improvement of downtown Edmonton.

It does him and his colleagues credit. For we are convinced that Mr. Detwiler is reliable and sincere.

We are convinced that his associates are sound and trustworthy. We are convinced that the proposed centre would enhance property values in downtown Edmonton and give a tremendous lift, not only to that section, but to the entire city.

We are convinced that the development would give Edmonton new publicity all over the North American continent.

But Mr. Detwiler, in failing to guarantee a specific minimum return to the city each year, upsets, in effect, the traditional tax structure of this city.

And in upsetting the traditional tax structure he makes this specific annual guarantee the crux of the whole business.

It is reasonable to assume that 25 percent of the net return from Mr. Detwiler's \$25,000,000 project would be between \$250,000 and \$200,000 a year based on the present high business level. Business tax on the \$250,000 centre would net the city another probable \$250,000.

But while these revenues to the city are probable and likely, it has to be remembered that Edmonton has not done business on the basis of probabilities and likelihoods.

Other business institutions pay a fixed sum in taxes. If depression should strike Edmonton, they would still pay a fixed sum in taxes.

In case of a depression, it is conceivable that the Detwiler project, which normally would pay some \$300,000 in property tax, would pay next to nothing at all. And that would place other Edmonton business men in a position of unfavorable competition.

It is necessary that every expansion project in Edmonton should follow a specific pattern. Unless that specific pattern is followed, it would be impossible to even compile the annual city estimates intelligently. Absolutely the only wrong feature about the Detwiler proposal is this lack of an annual minimum guarantee.

Some Edmontonians have doubted the bona fides of the proposal because they think it is too much like a fairy tale to happen to Edmonton.

This is a dubious view because it can happen to Edmonton. And there is nothing incongruous about the proposal from the standpoint of the investors who obviously stand to make a fair profit on their money and still render a great service to Edmonton.

There is nothing strange or unusual or equivocal about it at all. It is a straight business proposition useful and profitable to everybody.

And it can and should be consummated if Mr. Detwiler will include a minimum annual guarantee of revenue to the city.

Injured Pechet
Ready for Action
Against Flyers

By STAN MOHR
Bulletin Sports Editor

CALGARY, March 23.—Calgary hockey fans are breathing easier again. Announcement was made early this morning that Mitch Pechet, baby-faced forward who has provided so much of the sting in the Stampeder attack for the past month would be ready for action against Edmonton Flyers here tonight in the third game of the best-of-seven Western Canada Hockey league final.

For a time yesterday it seemed possible that Pechet, a re-labeled professional, who had played with St. Paul of the United States league, would be sidelined for the crucial first Stampeder game. In the closing moments of the second game at Edmonton, Flyers' defenseman Doug Lane clubbed Pechet over the foot.

Since then Pechet has suffered some discomfort. However, the injured member has responded to treatment, and he'll be out there tonight.

FANS HOPE
Stampeder supporters are hoping that Pechet, who has scored four goals and assisted in as many more since Stampers hit the playoffs last night against Saskatoon Quakers in the league semi-finals, will continue to roll, but let or not.

Twelve of 600 tickets went on (Continued on Page 10)

Reds In China
Find Opposition
Grows In South

HONG KONG, March 23.—(AP)—Resistance to the Communists in south China is as bitter, so widespread and so open that the Reds are losing patience.

The Nationalist said on the mainland last week that they had up the morale of the traditionally revolutionary south China. The Reders continued to push the news of the land.

Chinese reported back from the city said everybody in town knew about it.

It is a straight business proposition useful and profitable to everybody.

And it can and should be consummated if Mr. Detwiler will include a minimum annual guarantee of revenue to the city.

Ratepayers Vote Asked
For Detwiler Project

The Edmonton Chamber of Commerce wants ratepayers to vote on the Detwiler "Miracle Mile" scheme.

This is the effect of a city Bill of Edmonton Charter Amendments now before the legislature.

In its bill, the city is asking for power to enter into an agreement for development of the city centre area bounded by 184 and 191A, avenues, and 99 and 100 streets.

Chamber of Commerce city development committee, headed by Gordon Wynn, Wednesday announced support of the city request provided the city accepts the chamber's suggested qualification.

Specifically, this states that any agreement entered into by the city for a civic centre must be approved by a majority of the burgess.

A money bonus must be approved by a two-thirds majority.

COUNCIL INFORMED
Council has been informed of the Chamber's attitude, and it is understood it will consider incorporating the Chamber's previous into its Edmonton Charter Amendments bill, which comes before the legislature for third reading today.

In its only other action on the Detwiler scheme, the Chamber has come out fairly against tax concessions.

As a matter of broad principle, the Chamber of Commerce does not favor the granting of tax concessions and would not favor such suggestions in connection with the city centre scheme," stated a spokesman.

SUREST SIGN OF SPRING

SCHOOL is serious business as spring dawns. When temperature hit 40 and bare, dry spots appear on ground, out come the marbles. For these Alex Taylor school pupils, recess is a ringer.

Manning Sees Alberta
Free Of Debt By 1973

Alberta will likely be debt-free by 1973. That was the news Premier E. C. Manning gave legislature yesterday. Successful completion of the province's debt retirement and refunding negotiations will mean a total net saving of more than \$55,000,000 of provincial funds.

He made his statement to the house following his return yesterday from New York City where he completed negotiations with First Bond Corporation and a group of Canadian investment dealers headed by Wood, Gundy and Co.

Besides the bonds being refunded, \$14,486,100 in Alberta bonds held in Canada and \$5,091,300 in British-held bonds will be paid. Due to favorable sterling exchange, this \$19,577,400 payment will cost the province only \$17,448,370.

As a result of the debt retirement and refunding program, the province's bonded debt is reduced now to \$101,327,500, the Premier said.

REDUCE DEBT \$56 MILLION
Since 1956, the province's funded debt has been reduced by \$56,765,567, or a per capita reduction from \$15 to \$10.

The new issue of Alberta bonds—amounting to \$67,000,000—went on sale in the United States yesterday and the "demand is excellent," Mr. Manning said.

Manning between 1951 and 1973—seven years less than the term of (Continued on Page 2)

ECA Approves
\$9.4 Million Aid

The European Recovery Administration has approved new foreign aid totalling \$9,400,000 for western Europe and Korea.

The largest grant was for \$2,550,000 and will be used by Korea to buy fertilizer in the United States and Canada. Another grant gave western Germany \$400,000 to buy pulp and paper products from the U.S. and Canada.

Switzerland placed third in front of Britain, Sweden and Norway. The United States team was runner-up to Canada. The Americans defeated Norway 11-6 in last night's consolation game. The Americans' only defeat was a 5-0 drubbing they received from the Mercurys.

Centre Doug Macleay scored the first goal for the Mercurys midway through the first period when he rifled home a rebound from the end boards with Swedish short-handed.

The second Canadian scorer also came with a Swedish in the penalty box when Hasey Young, wing Lee Luchini and Al Newman as decoys, drifted through the defence to score from close in.

Young combined cleverly with Luchini for the third and final Canadian goal late in the second period.

In an afternoon game, Switzerland defeated Britain 10-3 to win the European amateur hockey title, awarded to the top European team competing in the world event.

Blaze Being Fought
With Bulldozers

A tiny spark gave birth to angry, searing flames that at noon today melted the derrick of Pacific Petroleum's No. 2 Excelsior oil well and sent three workers to Edmonton hospital.

Flames came with a roar that could be heard for 10 miles.

They crumpled the whole derrick.

Fifty men are fighting the blaze with bulldozers.

The company's radio dispatcher at Redwater reported the flames started from a spark flashed as a baller was being taken out of the well.

He reported trucks were being mobilized at Redwater to rush experienced men to the site, some 16 miles immediately north of Edmonton.

Appeal was made through the Bulletin at 2 p.m. by company officials for asbestos fire suits.

The company soon obtained seven asbestos suits in Edmonton for men to crawl under the fire near the well head in hopes of extinguishing it.

A full tank of fuel beside the well was punctured by rifle shot at 2 p.m. and huge clouds of black smoke covered the area.

Flames from the well ripped 130 feet into the air and could be seen for five miles.

MEN INJURED
Men rushed to Royal Alexandra hospital in Edmonton were John Allen, Ben Accord, Norman Deane, Leelan, Al Hoti, Egremont.

Allen was reported to have been the most seriously burned.

They were employed by Commonwealth Drilling Company.

They are suffering extensive burns to hands and face.

The night-day became grey and oppressive in the terrific heat.

BULDOZERS RUSHED IN
Radio dispatcher at Redwater for Pacific Petroleum said he began moving equipment and men as word reached him.

"I contacted all contractors in Redwater and rounded up four of the six bulldozers immediately," he said. "Trucks rushed there."

The operator said he marshaled all the men he could reach to fight the fire with foamite and mostly TNT.

The men who went out were mostly Pacific Petroleum workers, he said, but there were some volunteers.

The men were reported to have been working on a blowout preventer at the time.

DRIVEN BACK BY HEAT
Terrific heat forced workers a quarter of a mile from the site.

A Munro, farmer on whose land the well is located, said that for 15 minutes before the fire he heard continuous underground rumbling.

"It was just like the artillery I heard in the last war," he said.

Steve Romanowski, who farms a mile from the site, said "I heard sort of a whistle like a fire engine siren and the derrick was buried in flames."

Diesel engine and other heavy equipment was left red hot around the well.

IMPERIAL DISCOVERY
Excelsior field was discovered by Imperial Oil with a wildcat, Imperial Excelsior No. 1, which came in on Nov. 4, 1949.

The field is about 16 miles directly north of Edmonton.

Two weeks ago oilmen were booming it as a major field.

Imperial No. 2 reached a pay zone of over 130 feet, three times greater than the discovery well and more than double that of Pacific Petroleum.

Last big oilwell fire in the Edmonton district was in September 1949, when the famous Atlantic No. 3 went wild, caught fire, burned for months.

Missing Man
Still Unreported

YELLOWKNOW, N.W.T., March 23.—No trace has been seen of Bert Nieland, experienced oil skinner who has been listed as missing since he was last seen at the mouth of Great Slave Lake for nine days.

He has been without food for means of lighting a fire since he set out for Yellowknife by foot for fuel. Extensive search for him has been underway since Sunday.

Mr. Nieland brought one of the first gas trains to Yellowknife several years ago.

Late News
Flashes

BRITISH BUDGET

LONDON, March 23.—(UP)—The government announced today that it will introduce its 1950-51 budget in Commons April 18. The house returns from the Easter recess.

QUICK REPLY

OTTAWA, March 23.—(UPI)—The revenue department will complete assessment of all 1949 income tax forms by the end of this year and send out checks promptly, deputy minister Hugh Scully said today.

PRIEST JAILED

FRANKFURT, Germany, March 23.—UPI—A Polish court has sentenced a priest to 13 years in prison and five others to terms to 10 years for anti-state activity, the Polish news agency PAP reported from Warsaw to-day.

The broadcast said the priest was Vicar Czeslaw Wojciechowski.

SCHEME DROPPED

BERLIN, March 23.—(Reuters)—The Communist Free German Youth movement today abandoned its plan for a peace march by 500,000 youths through the western sectors of Berlin late in May in defiance of a western ban.

THOUSANDS JAILED

ALABAMA, March 23.—(AP)—Police Minister Lupton Al Khan says Pakistan had taken strong measures to suppress Hindu-Muslim violence in East Bengal and announced that thousands had been arrested.

FROM CANADA

OTTAWA, March 23.—(UPI)—Denis Wynn, Minister of commerce, said today that the government will support the United Nations plan for a peace conference in London, March 28.

Treaty Meeting
Seen In April

LONDON, March 23.—(AP)—British and other commonwealth members will soon allow and thresh out their proposals for a Japanese peace treaty.

The foreign office said last night that the treaty has been set for the next, but diplomatic sources expected it would come some time in April.

Clarence E. Williams, 31, pleaded guilty to failing to signal for a left-hand turn but gave the judge this alibi in Los Angeles: "The reason my window wasn't down and I didn't signal was that I had canaries in my car," said Williams. "They'd have flown out or caught pneumonia."

"Best excuse I've heard in two years," commented Judge A. P. Pfaff when he heard the case yesterday. "Five-dollar fine—suspended."

A grade crossing watchman has been removed from duty by the Long Island N.Y. Railroad. He was accused of being asleep when a train passed his post.

The watchman, William Frentzen, worked at a crossing in Rockville center, a short distance from the scene of the Feb. 17 wreck that killed 32 persons and injured more than 100.

A farmer lost his right eye yesterday in South Woodstock, Me. when it was punctured by a cow's horn. Arthur Thurlow, 43, went into the cow's stall to give it feed. As he leaned over to empty his pail the cow swung its head, hooking a horn into Thurlow's eye socket.

Dr. Donald Cameron McKean of Regina is first winner of the Canadian Cancer Society Fellowship for two years' cancer research, it was announced today in Toronto.

The fellowship was established in honor of the late Dr. Allan W. Blair, a leader in development of cancer clinics and treatment centres in Saskatchewan.

Miscellaneous

A hundred children of the Colorado school for deaf and blind were led to safety yesterday when a \$300,000 fire gutted the main building here. Damages included the loss of valuable collection of Beattie publications for the blind.

Teen-age boys and girls from all over the world are expected to come to Britain for a 1960 youth forum, opening in Birmingham today.

The delegates, all between 16 and 18, won the right to Britain in an essay competition sponsored by the United Nations association, writing on the subject they will discuss at rallies throughout Britain—"My country and world make."

Post-mortem examination of the three-week-old infant, flown to Guelph, Ont., from Lettbridge, Alta., with a form of paralysis, has yielded little knowledge so far of the disease.

Dr. F. W. Schofield said today microscopic examination of the part of the carcass is continuing in the hope that the disease may be diagnosed. Ontario veterinary college officials believe the paralysis is caused through diet deficiency.

Dr. Schofield said the disease can be prevented but as yet no treatment can be made to cure the animals of the paralysis.

The Chinese Communists today accused British authorities of "intensifying their persecution" of Chinese in Singapore. The Peiping radio hung the new propaganda blast on what it said was the arrest of Singapore editor Chu Chi-Chie for refusing to publish British government press releases. The broadcast was monitored here.

R.I.P.

John Steel, 55, treasurer of the southwestern division of the Great Atlantic and Pacific Tea Company died Tuesday night of a heart ailment in Chicago.

Kathleen V. Oehler, 57, for many years editorial assistant to a number of leading authors, died yesterday in New York. She worked with such writers as William Sydney Porter (O. Henry), Richard Harding Davis, Charles Norris and F. Scott Fitzgerald.

**BOY 14 WINS
FREEDOM, AS
OWN LAWYER**

VANCOUVER, March 23.—(CP)—A 14-year-old boy may be freed from prison bars.

He was sentenced to a year in jail for automobile theft, but appeared his case, appearing personally to plead before the judges of the British Columbia court of appeal.

The judges agreed yesterday that grant probation at the request of a family friend who has promised to bring the boy up as "my own son."

**Alta. Seen Free
Of Debt By 1973**

(Continued from Page 1)

the refunded bond issue—the new bonds carry an average interest rate of 25 per cent including costs of negotiating.

Current interest rate was 3 1/2 per cent.

BONDS CALLED IN 1954

The new bonds can be called at the option of the Alberta government any time after March 1, 1954 on 90 or 60-day notice. Call premium of one-quarter of one per cent for every year to a maximum of two per cent up to 1958, 1 1/2 per cent in 1962, one per cent to 1966 and half of one per cent to 1973 is payable by the province.

If the new debt reorganization program is continued the province will be free of bonded debt by 1973, Mr. Manning told the legislature.

The net savings to the province as a result of the new retirement of Canada and sterling bonds was \$635,000 while the savings as a result of refunding was \$17,500,000. This saving resulted from the lower rate of interest, interest saved on Canadian and sterling bonds and refunded over a shorter span of time on which interest will be paid.

**Dewey's Friends
Get Good Jobs;
He May Retire**

ALBANY, N.Y., March 23.—(BUP)—Gov. Thomas E. Dewey, twice defeated Republican presidential candidate and New York's first GOP chief executive in 20 years, indicated today he is ready to quit public life.

The governor, whose second term expires this year, broke up the "team" which guided his up and down political fortunes for the past 15 years. He gave most of the "team" long term appointments to state jobs, with salaries ranging up to \$15,000.

RENEWS ROMANCE

**Steno From Britain
Is Heading For Yukon**

HALIFAX, March 23.—(CP)—Attractive Freda Cooling, 36-year-old English stenographer, arrived here last night aboard the liner Empress of Canada on the first lap of a 6,000-mile journey to the Yukon.

Miss Cooling, who "simply can't understand" why people are so interested in her trip, is going to the Yukon to renew a wartime romance.

She met John Livesey, a ship's radio officer from Vancouver, nine years ago at a sailors' club dance in Liverpool. They became friends and have been corresponding since he returned to Canada after the war.

Livesey, now 38, owns a trading post on the Alaska highway at Beaver Creek. Freda will go by train to Edmonton, then fly to Whitehorse where John will meet her and drive her the remaining 300 miles to Beaver Creek.

**U.S. Plans Huge
Defence Projects**

**\$655 Million Spending
Sought For Military Works**

WASHINGTON, March 23.—(AP)—The United States military forces are embarking upon a huge building program at bases outside the continental limits of the U.S., especially in Alaska.

This can be seen from the fact that they propose to spend on these bases about \$230,400,000 of the \$655,000,000 they are asking Congress to authorize for military public works of all kinds.

The idea is to safeguard the U.S. from sudden "meek punch" possibly with atomic weapons.

The announced bases that will be strengthened range from Alaska to Okinawa, Hawaii, Kwajalein and Johnston Island in the Pacific to Bermuda in the Atlantic, up to Labrador, over to the Azores, Libya and Saudi Arabia.

RIO PROGRAM

Alaska apparently is to be made into a brilliant air defence fortress. To make it as a total of nearly \$117,800,000 is to be poured into that frontier nearest Russia.

The air force proposes to spend about \$45,537,000 for such items as radar "fence," long-range weather stations and highly-secret "interceptor stations" capable of eavesdropping on messages 1,200 to 2,000 miles away.

The army has requested \$14,250,000 to build a base that will defend these secret installations and the air fields from which the atomic bombs would be used to ward off attack or to retaliate.

**Coast Paper
Lays Blame
For Hoodlums**

VANCOUVER, March 23.—(CP)—The Vancouver Sun yesterday quoted a young waitress worker as saying juvenile hoodlums here is being fomented by "some organization trying to undermine Canadian law and order."

The newspaper story did not identify the clubs, who was quoted as saying: "This is deeper than just hoodlums. . . . Can you imagine what the effect would be in a new war with undisciplined, authority-hating youths like these in the armed forces?"

A special police detail and citizen forces are moving to curb juvenile vandals, blamed on 10 to 12 rootless gangs.

**B.C. Pianist
In N.Y. Recital**

NEW YORK, March 23.—(CP)—Barbara Cusack, Vancouver pianist, last night gave her third New York recital in Town Hall.

The New York Herald Tribune described her as "a genuinely gifted pianist, who approaches music critically and invests her interpretations with undulating tonal persuasiveness throughout the wide dynamic gamut she commands."

It noted "moments of technical uncertainty and slips of memory" but concluded "if she can achieve complete poise she should develop into a truly worthwhile artist."

**Truman Gets
Blast Over
File Secrecy**

By JOHN L. STEELE
Exclusive to the Bulletin

WASHINGTON, March 23.—(BUP)—Sen. Joseph McCarthy (R., Wis.), accused President Truman today of an "arrogant refusal" to grant Congress full access to government loyalty files.

He said in a telegram to the chief executive at his Key West, Fla., vacation headquarters that such action was "unreasonable and is endangering the security of this nation."

Mr. Truman has not said whether or not he will bow to Republican demands that the files be made available to a Senate foreign relations sub-committee investigating McCarthy's charge that Communists have infiltrated the state department.

He also can decide whether his long-standing directive against revealing loyalty files, FBI records and other confidential government data should be waived in the current inquiry.

**Stray DP Found
At Bedroom Of
Lady Alexander**

OTTAWA, March 23.—(CP)—25-year-old Yugoslavian DP found jollying in Government House said he was the bearer of a "secret message." He was remanded in court yesterday for a week on a vagrancy charge and will be given a mental examination.

The man was identified as Djavid Djelic, of no fixed address. Police said he was arrested March 20 when discovered by a cook at hideout flat standing on a stair-landing outside the bedroom of Viscountess Alexander, wife of the governor-general.

The Governor-General and Viscountess Alexander are at present on a visit to Britain. They left here March 14.

Edmonton May Bid On Empire Games

Commissioners Recommend Move To Council Tonight

City commissioners will recommend to council tonight that the city consider bidding for the 1964 British Empire Games, Mayor Sid Parsons said today.

If the city should succeed, additional facilities would probably have to be built, including a swimming pool to Olympic standards. Clarke Stadium's present 8,000 seating capacity could be expanded to 25,000 to 30,000, contractors reported.

HOTEL The remodelled Arena should be adequate for indoor events. Additional hotel accommodation including the Macdonald hotel on the north side, and probably the Crystal hotel, should be ready to handle the influx of visitors.

If council approves the investigation tonight, a detailed brief on what the city can offer must be immediately whipped into shape and presented to Roy Yoe, national secretary of the Amateur Athletic Union of Canada in Winnipeg by April 8.

Peace River's Cattle Areas Just Scratched

Cattle-raising potential of the Peace River country in North Alberta has barely been scratched yet.

It was the gift of the manasse delivered last night by Exhibition Association managing director James Paul to the Peace River country. The Northern Alberta Exhibition Club at the Exhibition Gardens, Edmonton, has been given the right by Paul "to set their sights" on the Peace River area and to place good animals in that district under competent field men.

Paul said to judge by the numbers of spectators with cameras in hand so far at the four-day, 90th annual livestock show, there should be "very high" interest.

NASC officials were high in their praise of William Melnyk, chairman whose Shorthorn bulls have topped Alberta's two biggest livestock shows for two consecutive years. Melnyk bulls have been named champions of both the Calgary and Edmonton spring livestock shows for 1963 and 1960. Yesterday his Mohar Norman Sensation triumphed over J. Barnaby and Son's Rivercreek, reserve champion.

Other speakers were Ernest Henderson, western provinces fieldman for the Dominion Shorthorn Association and Don McKinnon, president, Alberta Shorthorn Association.

Tearing Down Mandarin Cafe

Another phase in the clearance of the site of the Mandarin hotel extension opened today when Adco Construction Co. commenced tearing down the Mandarin Garden building at 9655 Jasper Avenue. Adco company officials said they hoped to have the building taken down within two weeks.

After the Mandarin is cleared away, demolition of Butcher's Supper and Maltshop pool building immediately in the east will commence.

AND IN BRIEF

Man Who Beat His Pregnant Wife Receives Jail Penalty

An Edmonton man who admitted beating his pregnant wife was sentenced in police court today to three months hard labor, after assistant crown prosecutor Guy Beaudry asked accused be given a jail term.

A city police detective told the court it was "not the first time the prisoner had struck his wife since the marriage in June 1949. "A jail sentence is the only punishment," he said, "because the prosecutor observed, after hearing evidence the wife had also been knocked down and kicked."

Tribute Paid New Queen By Merchants

Edmonton merchants lavished gifts on Federation of Community League Queen Annette Patterson, today.

Pretty 18-year-old Annette told Edmonton shops in a shiny limousine, accompanied by Pat Quinn, last year's reigning queen.

Community League and Civic organizations detailed briefs on the ride, but before the gifts for Annette at the Macdonald hotel, she was accompanied by Pat Quinn, last year's reigning queen.

A businesslike motorcade police escort in a woolly-trimmed Hudson's Bay blanket coat. Radio commentator Helen Kenney interviewed the brightly dressed Victoria College High school student who will reign as Federation of Community League winter carnival Saturday at Edmonton Gardens.

Following her radio debut, Miss Patterson proceeded to Morton's, where she was outfitted with a trim new-season grey suit. Millinery experts at Henrietta's Shoppe advised her to wear a hat to complement her brunette beauty and the new grey suit.

FOOT FLATTERY Food-flattering red shoes were next on the schedule and Lord Laid presented a pair of spring pumps.

A merry round of shopping took her to Christie's, to Wal-Mart, to a blouse, gloves and tie to accessorize the grey suit. She then bought a pair of slacks at Sally Shoppe for lacey lingerie.

Sparking-bright bracelet was presented by Henry Ricks & Son Ltd. to match the smile of the pretty queen. Great Western Saddlery's offering was a complete set of luggage. Party-time jewelry was presented to Miss Patterson by Irvine Kline Ltd.

After this hectic tour of shopping, tired Queen Annette relaxed for a soothing beauty treatment in Pavey's Beauty Lounge.

"Being a queen is fun," said Annette, "but it's harder than studying algebra."

Alaska Trucking Restrictions Coming Banning of truck travel from Alaska's paved highways and existing on other roads will be the order during spring breakup.

The territorial Board of Road Commissioners has announced that through press and radio releases it will give the dates when the ban is to be imposed and lifted. It adds: "A strict check will be maintained on all vehicles using the roads, and violators will be prosecuted."

The territorial Board of Road Commissioners has announced that through press and radio releases it will give the dates when the ban is to be imposed and lifted. It adds: "A strict check will be maintained on all vehicles using the roads, and violators will be prosecuted."

NICE MAN to know—if you don't write—is Dr. Ernst Alexandre, Melbourne, Australia, handwriting expert.

Rule Out This Pen Pal If You're Hiding Guilt

By Stan Burke Bulletin Staff Writer

Dr. Ernst Alexandre, of Melbourne, Australia, is a fascinating fellow—but rather disturbing.

He has an idea whether you might be a wife beater or a poker cheat. Let him use your signature and three or four lines of your handwriting and your soul is bare.

EXPERT One of the world's recognized experts on handwriting, Dr. Alexandre explained that handwriting is the seismograph of the brain and accurately reflects its character.

"It is not the hand which writes, it is only the hand that obeys," he said.

FRUITS ARE CLEAR For example, angularity in handwriting indicates either firmness or lack of adaptability.

If the ending stroke of a word extends out toward the right hand side, it means either generosity or a "negative" handwriting, aggressiveness.

Widely spaced handwriting indicates a pushing type of mind. If your writing is small it shows a power of concentration. If you write rapidly it means either restlessness or activity.

Where alternative characteristics are indicated, the general pattern of the handwriting will show which is correct. Dr. Alexandre said.

The biding, fiftieth Viennese in Edmonton en route to England and Europe, where he will brush up on latest techniques in his service.

STUDIES \$900,000 WILL In Vancouver he gave evidence in a trial over a disputed \$900,000 will.

The case has been sent to B.C. supreme court and Dr. Alexandre will be required to fly half way round the world from Paris to Vancouver to give evidence when the case comes up.

He figured in a similar case in Australia in which he proved a will to be a forgery and the satisfaction of seeing \$400,000 go to the rightful owners.

During the war he was able to track down a spy by comparing

handwriting of a number of suspects with that on an intercepted code message.

On another occasion, a murderer wrote to the Melbourne police wanting them, "you can find the body." They found the body, and Dr. Alexandre found the murderer.

The handwriting expert, who is also a highly trained psychologist, recommends wider use of handwriting character analysis.

PRE-MARITAL TEST You should never marry, for example, until you have checked your prospective mate's handwriting.

Dr. Alexandre said that a heavy downward stroke or you will find your personalities will clash, warns Dr. Alexandre.

Swimming Pool Admission Prices Changes in admission prices for the city's three swimming pools were announced today by Parks Superintendent Sandy Patterson.

A flat price of 25 cents will be charged everyone, children and adults, after 7 p.m. every day during July and August, and after 2 p.m. Wednesdays, Sundays and statutory holidays in June and August.

"It is an attempt to even out attendance at the pools," he said, "and to eliminate overcrowding."

Cattle Sales Over Average

Early sales today of purebred female cattle were termed by a few as better than average—although such annual reviews are few.

All bull sales will be completed late today.

Top price paid was \$700 for a two-year-old Shorthorn bull owned by William Melnyk. Purchaser was A. M. Gowen of Plenty, Sask.

Next highest was \$650 paid by George Leonty of Shale to Amberg Hensing, Andrew, for a Shorthorn female over three years.

John Lund of Sanguo received the highest price paid in the Hereford female class with three over the three-year-olds. Prices were \$670 for Lady Panama and \$600 for Daisy Domino, both bought by H. F. Rogers, Spence Grove, H. Weatherill of Toled paid \$500 for Lando Lady Opal.

First prize winner in the judging, Walter Price of Keady, took two fourth prize of \$200. Sunny View Real Domino 13th took two fourth prize of \$200. Toled, Sunny View Domino Lady 24th was purchased by M. Bielewsky.

J. H. Brown and Sons received the third prize for their Hereford female from M. M. Lawson of Toled.

Lowest price paid in the Hereford and Shorthorn classes was \$350.

Students' Council Assumes Office University of Alberta students' council for 1963 took over at a brief but impressive ceremony in last night.

Council president Mike O'Brien received the tapestry symbolic of free British government from Dr. Robert Newton, president of the university.

As its last official act, outgoing council, under president Tevie Miller, appointed the following student leaders:

Evergreen and Gold (yearbook) director, Frank Harper; Gateway business manager, Dale Simmons; disciplinary committee chairman, Al. Caverly; photography director, Virgil Monahan; Alarm director, Jerry Frank.

Following committee was named to supervise the Students' Union building which opens on September 1. Jack Fair, senior man; Pete Stewart, junior man; Olga Barika, senior woman. No application was received for the position for junior women.

Helps You Overcome False Teeth

Looseness and Worry No longer be annoyed or fed up with loose, wobbly, wobbly false teeth. FASTER, an improved false teeth powder, sprinkled on your teeth, makes them firm as they are. Avoid embarrassment caused by loose false teeth. FASTER is used by all drug stores.

EDMONTON BULLETIN, Thursday, March 23, 1965

ANCIENT COIN WORTH \$500 LOST IN CITY

City police now have to add coin "collecting" to their duties.

They were asked yesterday by B. W. Kitt, Ste. 50, Hubert Block, to help him recover the 1797 bronze coin, "larger than an American silver dollar," which he reported losing about a month ago in a South Side hotel.

The ancient coin is worth \$500 as a collector's item, he said.

American Demand Ups Lake Wabamun Prices

American demand has sent prices for Lake Wabamun whitefish up to 45 cents a pound.

Fishermen who removed a catch yesterday enjoyed a point above around 30 cents a pound, but price obtained in earlier catches this winter.

The lake is opened to commercial fishing for three days during the winter months.

CATCH TOTAL Yesterday about 6,000 pounds of fish were caught, Alberta fish and game branch officials reported.

Top price was 45 cents a pound, although prices paid for previous catches were less than 15 cents a pound.

Most of the latest catch will be shipped to United States, with a small amount being sold locally.

Leopards, pound for pound, are the most destructive of predatory beasts.

When Choosing Your NEW SPRING TOPPER Be Style and Fabric Wise and Specify Covert Cloth

37.50 and 47.50

Wife Cries At Sentence

An attractive young wife left in tears from Edmonton police court today when her husband, Edmund J. Houk, was given a one year term in Fort Saskatchewan after pleading guilty to a false pretences charge.

The husband's counsel, Al W. Miller, K.C., had previously told the court accused needed psychiatric care, "not a jail sentence."

The lawyer said the quiet, well-dressed prisoner was a war veteran who had suffered head injuries during the war.

"Since then he has been doing these foolish things," the lawyer stated.

Roux admitted tendering cheques of \$10 and \$20 as down payment on a 1960 car, March 1. The cheques were later returned to the car dealer by the bank, the court was told. Houk was arrested March 6, after the dealer complained to police.

Five previous false pretences convictions bringing light or "suspended sentences" against the accused, were cited in court.

Employees Give Charities \$3,050

Employees of South Canadian Co. in Edmonton contributed \$3,050 to public service organizations during the J. Connelley chairman's "Employees' Give" campaign yesterday.

Contributions were \$2,000 to the Edmonton community chest, \$300 to the Canadian Red Cross, \$250 to the Canadian Cancer Society, and \$500 to St. John Ambulance.

WHAT'S SO GOOD?

AFTER THE STORM HAD BLOWN OVER, THE CAPTAIN OF A SMALL SCHOONER EMERGED FROM HIS CABIN TOOK A QUICK SURVEY, AND BAWLED TO A NEW HAND, "AHoy, MATE, WHERE'S TH' BOTTEN MAST?"

Don't Overlook Alberta's Farms

In spite of the benefits of Alberta's oil and the need to develop it, there is much greater benefit to Alberta's farm production than to its oil production.

In both fields, the University of Alberta is doing excellent work. In agriculture, the supply of engineers is more than adequate. In oil, the supply of engineers is low.

The fundamental solution to the problem is to have a well-trained farm population. We can never maintain agriculture by subsidizing it. We can only maintain it by providing a well-trained farm population. We can never maintain agriculture by subsidizing it. We can only maintain it by providing a well-trained farm population.

We overlook the fact that while our agricultural schools and our extension service are doing excellent work, the farmers' best methods for increasing their production are not being used. The experts are in turn dependent upon adequate research and extension service.

Yet this valuable work must be done in scattered out-dated buildings on the University campus. The University's workers cannot be expected to work in these quarters, and they don't need to. In fact a good 10 per cent of the University's workers are snatched away to other centres where most of them have family. They are not themselves to say nothing of the quality of the results which these other areas have obtained.

The solution *must* be to build a new *afford to house the key agricultural research experts. Alberta has more first class agricultural research facilities than any other province. Yet if we are to use these facilities, we must provide facilities for them.*

The next building to be erected must be an agricultural research building in which not only more of the University's workers, but in which more agricultural workers from the province, which would then be available.

Letters to the Editor

Letters to the

some farmers and ranchers are falling for it. It is well directed, heavily financed with almost unlimited facilities for publicity. The present political situation in Ottawa is also a danger to the forests and future security of the farm people. The government has such a ponderous majority and it will be inclined to follow the status quo, wait and see. In the meantime things are getting serious for the farm people. I do mean serious. Prices of everything we buy are going up, business increased freight rates, increases in the price of tires, petroleum products and steel.

[illegible]

Best Working Conditions Needed

KE or remembrance of it; that the minister's son from Middletown, Ontario. One of the brothers of the archbishop's leading store, our former Member of Parliament, Ottawa, our former mayor and former alderman who lived right here in Edmonton till his death, M. Douglas.

There is just one thing we have that no other city in Canada is in quantity and that is oil so the only slogan to bring business and money to us is,

Edmonton, The Oil City of Canada.

EDMONTON, FOR EVER
Edmonton.

Bulletin—It is quite evident there is a very aggressive campaign being carried on in and over the radio at this time by certain individuals with the object of instilling opinion and bringing to bear on the government to remove or such measures as the West Pass Agreement on grains and flour, marketing of grains, prices of products, Agricultural Export Act, etc. The campaign is very subtle.

change," and at the same time
read the article in "The

quiring reporter

JACK DeLONG

By Harold L. Wein

Best Movies

world with eyes. In factories in child dream of it turning into liars like say that child is the most forms of child was weakened damaged before tends to values of a teenager out his

pit is that he was wasted on children. It is not wasted on juvenile movie stars because youth is one thing they never have. All the delight and beauties of childhood are battered for a specious and ephemeral fame. From three to five years these unfortunate youngsters flourish in a blazing white flame of synthetic glory and after that they are forgotten. They are left emotionally desolate and bewildered over the caprice of fate that has dropped them from the pinnacle of pseudo-fame to an obscurity they have been taught to dread as the threat in misfortune.

In comparing both writings I find that the two authors have a similar theme. In Benjamin's letter, except to outline my idea of "Citizenship Exchange." In the first letter I cite that at least 50 Edmontonians who would gladly participate in the exchange. Several hundred "oil workers" were laid off around Calgary. Working in the oilfields near Edmonton who would gladly shift to southern Alberta, to be near their families and friends. "The city of the foothills," which they all out to welcome the new residents and these hundreds of 11 add the exchange of employees of the stores, warehouse, banks, railways, etc. and the new residents. The exchange in Calgary and Edmonton.

This exchange would put no one at a disadvantage, except the oil workers. They would have to be persuaded to make Edmonton a city of friendship and to stay in the city. I would like to see a hard for the Calgary.

Staff Writer

Question: What do you like best about your favorite flower? How does it affect public and what is its personal choice?

ANSWERS (obtained at convention):

Bobbins, Edmonton florist:

Public opinion is divided pretty evenly between the carnation and the gladiolus. Both flowers are versatile. My own favorite is the violet.

Riden, The Great Falls business manager:

The carnation is the most popular flower in the world. It's the one I see everywhere. It's the one I see everywhere. It's the one I see everywhere.

Donner, Edmonton florist:

The carnation is the most popular flower in the world. It's the one I see everywhere. It's the one I see everywhere. It's the one I see everywhere.

Brazil Seeks More Trade in Canada

Latin Americans Claim Getting Unfair Bargain

By Norman M. MacLeod
Exclusive to the Bulletin

OTTAWA, March 23.—(BUP)—Canada and Brazil to press an all-out effort to boost their trade with each other but the Brazilians said they were getting the short-end of the stick.

RICH RETURNS

Big Use Seen Of Atoms In Growing Trees

MONTREAL, March 23.—(CP)—Proper use of new atomic energy in promoting tree growth could pay the bill for atomic development.

Thiessen, president of Pulp and Paper Research Institute of Canada, told Canadian pulp and paper association.

Dr. Thiessen, whose former field of work was atomic research, said atomic techniques can be put to good use in regeneration, nutrition and stimulation of tree growth.

"I would venture to predict that the increased income that may come to the forest-products industries from the application of radio-active materials to forest management and forest utilization problems," he said, "would more than pay the entire bill for atomic development to date."

In silviculture, re-planting, forest entomology and forest pathology, genetics, and in other fields, there are literally thousands of new avenues that should be explored with these atomic techniques."

Dr. Thiessen, who is head of the Economic Research Bureau in Montreal and executive director of the Canadian Federation of Mayors and Municipalities.

The Victoria Times says Mr. Thiessen is one of four top candidates now being considered for the position. There are 75 applicants for the recently-created post.

Easterner May Get Victoria Manager Post

VICTORIA, B.C., March 23.—(CP)—George S. Mooney of Montreal may be appointed manager for the City of Victoria. It was reported today.

Mr. Mooney is head of the Economic Research Bureau in Montreal and executive director of the Canadian Federation of Mayors and Municipalities.

The Victoria Times says Mr. Mooney is one of four top candidates now being considered for the position. There are 75 applicants for the recently-created post.

SHOCKING! SACRILEGE!

'Oscar' Found in Gutter Horrifies All Hollywood

By PATRICIA CLARY
Exclusive to The Bulletin

HOLLYWOOD, March 23.—(BUP)—Movie stars who give their last mink coat to find home in "Oscar" tonight refused to believe that any lucky winner would throw one as it was.

It was battered, tarnished and minus its feet when Kieran found it in South Los Angeles miles from the usual haunts of Oscar-winners. It was engraved "first award, 1950, Academy of Motion Picture Arts and Sciences" but there was no name on it.

The Academy said its awards have no engraving at all when the weeping winners clutch them to their hearts. When they can bear to part with them a few days later, the Academy affixes a plate with their name and the date. Officials don't know how the statuette could have one part of the label without the other.

If Kieran will return it to them, they said, they will go down their list of winners to see who it belongs to. But it's possible, they said, that it's only an imitation.

None of the 1950 winners still around would admit to the heinous. "It certainly isn't mine," said Betty Davis, who won in 1950 for "Dangerous." "I'm mine regularly with the greatest of pride."

"Shocking," rambled Victor McLaglen of "The Informer." "Who would so mistreat such a beautiful award?"

"Mine occupies a place of honor," John Ford, named best director for "The Informer," said through his secretary.

"I'm not guilty," said Dudley Nichols, writer on "The Informer." "It must be a fake."

"It still is to be used as a doorway," New York producer Charles MacArthur said. "My house was built around it."

5 Sask. Requests Federal Loan

REGINA, March 23.—(CP)—Western Minister J. B. Sturdy said that Saskatchewan's plans for low-rental housing legislation depend on whether the federal government will lend the province 25 per cent of a housing-program cost.

Mr. Sturdy returned from Ottawa yesterday. Under the proposed federal-provincial arrangement, Ottawa will supply 75 per cent of the cost and Saskatchewan 25 per cent.

Mr. Sturdy said he maintained while in Ottawa that the only way Saskatchewan can raise its 25 per cent is by borrowing it from the federal government at a low rate of interest.

\$12 Million For U.S. Corn

OTTAWA, March 23.—(CP)—Total of \$4,800,000 bushels of U.S. corn, valued at \$12,382,307, was imported into Canada by private companies and individuals in 1949. It was shown in a Commons return tabled for M. J. Coldwell, CCF leader.

Mr. Coldwell asked if any of the corn had been stored in elevator space allotted for the purpose by the Canadian Wheat Board.

The return said: "Yes. Imports of American corn for consumption in Canada are unrestricted. However, the Canadian Wheat Board maintains a liaison with the terminals to ensure that American grain including corn received into Canadian terminals for storage and forwarding for export does not unduly interfere with the movement of Canadian grain."

"The use of Canadian facilities for the handling of American grain including corn is encouraged provided that the movement of Canadian grain is not prejudiced."

"We need Canadian buying in our country," he said. "And in the long run, Canada will welcome Brazilian trade. Canada at the moment is taking more money out of our country than it is putting back."

He said that only in the last year had Brazil sold more to Canada. "The Canadian-financed Brazil, an Tractor, Heat and Power company alone nets its investment a cool \$23,000,000 a year," Correa said.

Commons Will Probe CNR-TCA Deficits

OTTAWA, March 23.—(CP)—Large 1949 deficits of Canadian National Railways and Trans-Canada Airlines will be examined next week by a parliamentary committee.

Both reports advance to the Commons covering advances to the CNR. The 1949 report of the CNR, which reported a deficit of \$2,042,000 on the year's operations, may be tabled today. The report of TCA, which had a 1949 deficit of \$4,317,000, will be tabled Friday.

Mr. Howe, largely responsible for bringing TCA into being in 1937, announced the review after George Drew, Progressive Conservative leader, asked for a full explanation of the large TCA deficits, which have climbed to their present high of \$1,200,000 in 1949.

Officials appear. Mr. Drew gave notice that his charges during the general election campaign on the efficiency of the North Star aircraft used by TCA will be brought up at committee hearings.

Mr. Howe said officials of TCA will appear before the committee and will answer any questions about operations of last year and forecasts for this year. He did not think the commons should try to duplicate the work of the committee.

Inside Hollywood

By Bob Thomas
HOLLYWOOD.—(AP)—The reason movie stars get into so many headlines, says Director Alfred Hitchcock, is because "they are really children."

TOO CLOSE

Mouse's Love Of Warm Cat Proves Fatal

Exclusive to the Bulletin
JERSEY CITY, N.J., March 23.—(BUP)—An orphan mouse was killed by the kindness of a cat yesterday.

The cat, which makes her home at a railway express depot here, gave birth to three kittens about two weeks ago. The cat family was sent to a cardboard box and the mouse dropped in to call. It stayed for two days.

The mouse nuzzled up against the mother cat and went to sleep along with the kittens. It rode on the cat's back and played with the furry little babies. The mother cat washed the mouse several times a day, along with her children.

The mouse got a case of woe yesterday again and went off in search of food and bread. It dropped in on the cat family occasionally, but it was always welcome.

Yesterday the mouse visited his feline friends. It was tired, so it curled up to be warmed by the mother cat and went to sleep. The mother cat stretched and rolled over. She accidentally rolled on top of the mouse and smothered the mouse without realizing it.

The mouse got a case of woe yesterday again and went off in search of food and bread. It dropped in on the cat family occasionally, but it was always welcome.

Yesterday the mouse visited his feline friends. It was tired, so it curled up to be warmed by the mother cat and went to sleep. The mother cat stretched and rolled over. She accidentally rolled on top of the mouse and smothered the mouse without realizing it.

Timber Increase
LAKE SUCCESS, N.Y., March 23.—(CP)—Canada can probably double her present output of forest products, a United Nations report said today.

The increase could be obtained by systematic forest management and the opening of some 215,000 acres of forest now classed as inaccessible.

CNR Sits On Fence Over CPR Rates Plan
OTTAWA, March 23.—(CP)—Canada's freight-rate structure should not be affected by the Canadian National railway's capital reorganization plan, a CNR officer told the Royal Commission on Transportation.

The official—T. M. Cooper, vice president and controller—refused yesterday the projected revision of the CNR's capital rate of return, which would be set at a "very inferior" position financially to the privately-owned Canadian Pacific Railway.

The plan was advanced before the commission last week by Donald Gordon, CNR president.

Mr. Cooper said:

1. The Canadian National is not making any recommendation on the question of whether railway rate-making should be shifted from the present basis of the railway's financial requirements to that of "rate of return" on their investment. The CNR strongly favors the latter system.

2. The CNR does not expect to become the "yardstick" for rate setting as the result of its proposed reorganization. The regulatory board of transportation commissioners now uses the CNR as the criterion for rate-making in the government line, peculiar financial structure.

Steeple Look Like Poles
Painters See Only Green When Look at French Sky

By HARMAN W. NICHOLS
WASHINGTON, March 23.—(UP)—In France the skies are green.

At least they are in paintings at the Corcoran Gallery of Art where the prize-winning works of 70 contemporary artists are on exhibit.

Among the French paintings there isn't a blue showing.

John Leeper, a quiet little man in a yellow bow tie, royal blue sport coat and grey slacks who works for Corcoran, said he didn't know anything about the skies in France. George H. Hamilton, of the Phillips Gallery of Art, who has a French background and a goatee to prove it, said:

"Well, er-er, sometimes a sky looks a little green, like the water on Lake Michigan."

The exhibit is sponsored by the Hillman people, who put up \$25,000 in prize. The idea was to come up with some new Christmas scenes which might be used on greeting cards. The artists got their prizes as advertised, but there is hardly a Christmas scene in the lot.

None of this "over the hills and through the woods" stuff. You find things in oil which are labeled as church steeples but which look like telephone poles. There is another thing with a title about Christmas trees, which doesn't have any flowers in it.

Atomic Member
KEY WEST, Fla., March 23.—(AP)—Thomas E. Murray, 36-year-old New York engineer, business executive and inventor, was picked today by President Truman for membership on the vital-import commission Atomic Energy Commission.

Murray succeeds to the vacant created by the resignation of Chairman David E. Lilienthal, but the President withheld the designation of a new chairman until after April 15 when another member, Lewis Strauss, is leaving, and another appointment must be made.

MASTER OF COMEDY, Danny Kaye sweeps across in riotous display of song and dance, clowning and just plain acting, in Warner Brothers' long-awaited film, "The Inspector General." Story of illiterate gypsies who is mistaken for high official forms plot of hilarious hit. Show starts tomorrow at Capitol Theatre.

Danny Kaye Stars In New Capitol Hit

Madcap tale of an illiterate young gypsy who becomes a high official of a mythical country is told in Warner Brothers' latest hit, "The Inspector General."

Ottawa Loses Track Of DPs

By JOHN E. BIRD
Exclusive to the Bulletin
OTTAWA, March 23.—(BUP)—The demand for European displaced persons in Canadian jobs has tapered a standstill and the government has lost track of many who came here, it was reported today.

Labor department officials said the one-way ferry of stateless persons from Europe to Canada dropped 7,600 last year from 12 months previously and was becoming less all the time.

Department spokesmen said Canada of some 41,000 DPs brought to Canada in group movements since the war were "disappearing into the labor market."

SOME MISSING
Under that plan, the DPs, "New Canadians," as the department likes to call them, were brought to Canada at the request of employers who couldn't get enough Canadian to do their work. Federal authorities know the whereabouts of about 13,000 who still were under one-year contracts they signed before leaving Europe and under which they agreed to stay a government-designated job. They were gradually losing track of the 28,000 others who completed their contract obligations, an informant said.

His estimate did not include some 50,000 (former) Europeans who came to this country to join relatives.

Musical highlight of the comedy is the "Boulogne for Three Heads," a quartet sung by the four heads of the one Danny Kaye. Sylvia Fine wrote the score, one of the most novel and unusual ever attempted on the screen.

Tombstone Paying After 80 Years

TOMBSTONE, Ariz.—(UP)—Tombstone has begun making good a debt it incurred nearly 80 years ago.

The \$125,000 obligation appeared on the city's books when, as a rough mining camp, it defaulted on salary warrants.

City officials decided to pay off the debt after the state auditor, Anna Frohlinger, warned that Tombstone no longer would receive its share of state sales tax receipts unless it cleared the account.

A special tax was imposed recently and a \$1,000 check was promptly forwarded to Mrs. Frohlinger as part-payment for the long-standing obligation.

White Envelopes Hold Oscar Secret

Tonight Is Big Night As Stars To Be Picked

By Virginia MacPherson
Exclusive to the Bulletin
HOLLYWOOD, March 23.—(BUP)—Tonight's the big night in Hollywood.

The "Oscars" are all polished up for the weeping winners... the bleachers are built for the screaming fans... and Never-Never Land's all set for its annual pat-on-the-back session.

The whole town's in its annual tizzy over who's going to grab the glory for outstanding movie performances in 1949.

RESULTS ARE DECIDED
Voting long since has been over, the names of the winners are sealed in white envelopes, and all the nervous nominees wished the ordeal were over.

The festivities lead off at 8 p.m. and everybody who is anybody in glitterland will be dressed up in jinks and satins and tuxedos to join into the Hollywood Pantages theatre.

Paul Douglas, who used to be a sports announcer, will emcee the shindig. He has his orders to keep things rolling. This means just one thing: throttle any gushing winner who feels an oration coming on.

"I'll do my best," Douglas said. "But I've never been in an academy thing before."

TWO CLOSE RACES
The tension is heavy this year, with two close races going on. The know-it-alls will tell you the "best actor" award is a toss-up between Broderick Crawford for "All the King's Men" and Kirk Douglas for "Champion."

Also in the running are Gregory Peck, Richard Todd, and John Wayne.

Flying Saucers Go for South
MEDICINE HAT, March 23.—(CP)—Flying saucers travelling 200 to 300 feet over the downtown section of this city yesterday were reported by a saleswoman.

Mia Dorothy Lindfield today described the flying discs as "large saucers," which appeared to be tumbling and turning over as they progressed. They were a bright silver color, glistering in the sunlight and then turning to a dull glow as they turned over.

The flying objects at first were believed to be disks.

Curriem Confident of Short Series

CALGARY—Any of you guys and gals who believe that confidence is half or even two-thirds of the battle, should be yourselves to the nearest betting commission, there to wager at least half of your last odd-age pension cheque that Flyers will iron out Stampeders in Victoria Arena here tonight.

What's more, you should make plans to bet it right back that this Western Canada Hockey league final won't go more than five games.

Really, the Curriem are 80 percent confident. "Should be it in not more than five games," was Colin Kilburn's rejoinder last night to the inevitable question, And there were others—Doug Anderson, Gordon Watt, and Harvey (Pug) Young, to name some of them—prepared to go along with the league's most valuable player.

It could be that those two wins in as many starts back in Edmonton are proving pretty heavy stuff. So much so that the optimism on the club have conveniently forgotten a very salient point, to wit, and viz:

In nine starts on Calgary ice, this season, Flyers came up with one—one, that is—win and a like number of ties. No more.

Flyers Fried up For This One

But truth to tell this might be a slightly different Flyers squad in action tonight, than on previous appearances here this winter.

Yes, the personnel is the same, but there's no doubt the Curriem will be suffused with tremendous will to win along about the time the puck is dropped to send the game on its way.

Not one of them but will be digging from belt to belt, for if for no other reason than it is the time of year when only the swift, successful among hockey teams continue in touch with the payroll system.

Then there's the winning of the Allan Cup to be considered.

Two years ago, 10 of the current roster found what it's like to win the ancient bauble. They liked the medicine, are quite prepared for a repeat of the dose. And on this one, they're confident.

Frederick, centre Steve Latoski, Kilburn and the balance—are right behind them.

Hockey is a business with most of these fellows—and a pretty cold-blooded business, too. But even with them, playoff time can be a time for dreams of conquest.

Team Has More Fight Than in '48

During a bull-session Elmer Kreier drew an interesting comparison between the champions of two years ago and the current crew.

"The team of two years ago had more polish than this one. They did things easier, smoother. But this club has more fight," he added them.

While Kreier spoke Bernie Bathgate, the big cigar stuck in his mouth, as usual, catgated an attentive ear. Bathgate wasn't with the Allan Cup kings of the 1947-48 season, being in the employ of Vancouver Canucks.

Nevertheless, he nodded his head at Kreier's mention of "fight."

"That's something you can't buy," he said, almost admiringly. The clever pivot seems to have that detached point of view toward club affairs that one sometimes encounters in utility men.

There's no telling where this conversation might have led to had the burly Young's name not intruded itself just at this time.

Someone wanted to know who Young's roommate was. It turned out that for several seasons now it's been a case of pairing up the big fellow with Gordon Watt, the team captain.

As Watt puts it: "He'd drive anyone else nuts." Seems that Mr. Young is addicted to the practical joke, at almost any hour of the day or night.

PLAY RAYMOND NEXT WEEK

Vic Gals Capture School Cage Crown

Victoria copped the city high school girls' basketball title yesterday by defeating the Victoria boys' two-game total-point series by three points, Garyn having won the first game 21-19.

ROY CONACHER QUILTS

BOSTON, March 23 (UPI)—Veteran winger Roy Conacher of the Chicago Black Hawks plans to quit professional hockey for good and enter the catering business with his brothers in Canada.

Conacher made the announcement last night. At the same time, the team's acting coach, Robert (Red) Himmelsbach, announced that he has been appointed coach of the Black Hawks Milwaukee Farm club and would take over the post when training opens next fall.

FLYER BOOSTERS FLYING TO CALGARY

A special Trans-Canada Airlines flight will carry 21 fans to Calgary for tonight's Stampeders-Flyer hockey game. The party—known as the Flyer Booster Special—will leave the Edmonton airport at 4:30 this afternoon.

The fans will be decked out in oil hats to typify Edmonton as the oil capital of Canada. They will arrive in Calgary at 5:45 and return home shortly after midnight.

Bill Connelly, local business man, organized the flight. He plans to make the trip are Andy Purcell, W. Graham, J. Scott, Dr. A. Way, Dr. Al Hall, Tommy Brant, Shorty Roque, D. Mercer, J. Noble, Walker Baker, J. White, C. Martindale, H. Moughan, J. Haddow, R. P. Cain, D. Vasey, C. Anderson, J. Henning, J. Mercer and K. Lawson.

MERCURY'S ATTACK in game with United States this week in play for world's amateur hockey championship. Doug Macaulay (10, center in group at left) leads drive which is broken up by American defenseman (on ice). Mercury won game 5-0 as the event on to win title by dumping Sweden 3-0 yesterday.

SWEDES WERE TOUGH

Mercs Quiet After Victory

LONDON, March 23 (CP)—It was unusually quiet in the Edmonton dressing room last night after the Mercurys had wrapped up another world hockey title for Canada.

The players were just as tired following their gruelling 3-1 victory over Sweden that they hadn't a holler left in them.

"It was so hot in the rink I thought I was going to die," said Pete Wright, the big in defence. "I was playing with a headache. I got hit on the head Tuesday night. I been seeing ever since."

The rest of the team agreed last night's game was the toughest they'd played for a long time. "You can't get any more tired," said Hassie Young, left Don Stanley, who missed the game because of a sprained knee.

Harry Allen, one of the Mercurys' brightest stars during the tournament, sat slumped in a corner in a state of near-exhaustion, trying to unlace his skates. Suddenly he jumped up and yelled, "Well, it took 38 games to win her, but we finally won her."

That sparked the team out of the daze, and all the players began to laugh and yell as they headed for the showers.

"I'll sit up with my head and let a party go," whispered Jim Rogers.

But the only liquid refreshment handy was water, and the drowsy longmen celebration didn't last long on such fuel.

"It was a wonderful shift," beamed J. A. (Jim) Chalmers, the team's sponsor.

Coach Jimmy Graham, wearing a wide eye, hardly had a word to say. It was an old story to Graham, who plays in the Edmonton Superior team which won the world title before the war.

Vets Fastball Team To Meet

Army and Navy Vets fastball team will hold a meeting Friday at 8 p.m. at the club rooms. All of last year's players and anyone wishing to try out for the team please attend.

DAVIS WITH RAMS

LOS ANGELES, March 23 (AP)—Glenn Davis yesterday cast his athletic future with the Los Angeles Rams pro football club. Passing a number of attractive offers from major-league baseball organizations, the 25-year-old "Ram Country" of army fame, formally signed a one-year contract with the Rams.

Scolded while in the custody of the Post Office Department is accused alcoholic secretary.

MERC'S TRIUMPH BRINGS DOWN ALBERTA HOUSE

Edmonton Mercury not only stopped Sweden yesterday, but they halted the Alberta legislature for a brief spell as well.

When the news of Mercs winning the world title reached the parliament building, speaker Ernest Manning interrupted a debate and forwarded the result to the members. And he brought down the house, as the saying goes.

Manning said, "With this victory and E.A.C.'s winning the provincial title, the crown is now up to the Flyers to win this one."

Members suggested a great war from the members and spectators.

Totem Pole Meet Chairman Dies

ALBANY, N.Y., March 23 (AP)—Arthur M. Kirk, passenger traffic manager of the Canadian National Railway, died today.

He was perhaps best known to western Canada because of his position as chairman of the tournament committee for the Totem Pole event.

He died in his sleep and was 64 years old.

No Bouts Necessary To Decide 15 Champs

The annual Edmonton Schools' Boxing and Wrestling championships haven't started yet but 16 entrants can already be sure of a title.

That's the number of entrants who, as yet, haven't any opposition in their class. They're all either too small or too big.

And one of the largest, St. Chrysostom of Victoria, has already won his title without a fight.

Stuart Bird, physical education director for the school, said last night that all entrants must appear at Westlen tonight between 6:45 and 7:15 for the official weighing in.

Bouts will start 7:30 every evening with some fights held tomorrow night and the majority on Saturday.

For competition are the two trophies awarded annually by Cecil "Tex" Golding for the outstanding wrestler, and the Edmonton School Teachers' Cup which goes to the most promising boxer.

Montreal Moves Ahead Of Fading Toronto Leafs

Welcome Planned For Mercs

Edmonton will go all out in honoring the Mercurys, newly crowned world's amateur hockey champions.

Individual citizens and members of the legislature have already begun to plan for the celebration.

The legislature featured the game of amateur Alberta MIA's in volume with those of city members.

PUBLIC RECEPTION

In Edmonton there will be a public reception, a parade through the business section and a dinner with which will be featured by the presentation to members of the team.

The cable of congratulations has been prepared beforehand and dispatched to the Mercurys' room as they arrived.

When the news of Mercs winning the world title reached the parliament building, speaker Ernest Manning interrupted a debate and forwarded the result to the members. And he brought down the house, as the saying goes.

Manning said, "With this victory and E.A.C.'s winning the provincial title, the crown is now up to the Flyers to win this one."

Members suggested a great war from the members and spectators.

COMMITTEE STATE

City commissioners will recommend to the council tonight that a welcoming committee be set up.

Members suggested a great war from the members and spectators.

Montreal Moves Ahead Of Fading Toronto Leafs

TORONTO, March 23 (CP)—It took them almost until the last minute of play last night when the Leafs last night climbed into sole possession of second place in the National Hockey league.

With but 41 seconds left in the game, hockey Montreal scored to give Canadians a 2-1 decision over Toronto. Maple Leafs and Montreal tied 1-1 in the first period.

Victory gave the Canadiens a commanding position to keep that second spot in the final standing as each team has two games to play this week-end to finish up their schedules. The second-place team faces the fourth-place New York Rangers in the playoff while the third-place club faces the league-leading Detroit Red Wings.

Wings, meanwhile, trapped in eight goals in the last two periods to take a high-scoring 5-2 victory from the Rangers at Detroit. It is the fourth game of the fifth round of the playoffs.

Toronto edged into a 1-0 first period margin against Montreal but the Canadiens' second period middle frame to knot the count.

The game seemed destined to go to the last minute when the Leafs scored the winning goal.

Joe Kivik, potted the only Toronto goal when the Leafs scored the winning goal.

Besides getting the winning goal, Dussault also earned him \$100 on the post game. He had promised his players that the winning goal scorer would receive \$100.

Divorce Rate In Province Second High

OTTAWA, March 23.—(CP)—Perhaps it's a sign of the times, perhaps not, but Canada's divorce rate is dropping rapidly.

At least it did during the last two years, the Dominion Bureau of Statistics said.

The bureau's review showed that in the last two years the national divorce rate fell from 85.2 to 41.9 per 100,000 population. Only Nova Scotia and Quebec showed an increase in the divorce rate in the last two years compared to 1948.

2,732 IN ONTARIO

Ontario had 2,732 divorces in 1949, compared with 2,107 in 1948 and British Columbia 1,431 compared with 1,683. Alberta's divorce total fell to 594 from 631; Manitoba to 411 from 427; New Brunswick 252 from 211 and Prince Edward Island 20 from 40.

In Nova Scotia divorces increased from 18 in 1948 to 34 last year and in Quebec rose to 350 from 282.

On the rate per 100,000 population Alberta took second place with a rate of 84.2 compared with 77.9 in 1948 and Ontario had a rate of 53.8 compared with 72.3.

Rates for other provinces with 1949 figures in brackets were: Manitoba 528 (630); New Brunswick 211 (419); Saskatchewan 236 (292); Nova Scotia 31 (123); Prince Edward Island 212 (252); and Quebec 350 (282).

INJUNCTION

Legal Papers To Stop Rain Deluge N.Y.

NEW-YORK, March 23.—(UPI)—New York City reaped a legal watershed today without ever seeing any rain.

Its \$100-a-day Harvard deluge-urges was poised. Police planes whirled with device sprayers ready to trigger and pump cumulus clouds from out of the ether that might drift over the Catskills.

But before the city even had a chance to try out its rain-making technique, four fear-shaken communities up the Hudson river clumped up and rained legal charges all over the administration of Mayor William O'Dwyer.

They said it was all a plot to sell water meters. They asked an injunction to halt the tests.

They said the rain-making might start a chain reaction "downpour and deluge" which would flood out resort hotels, carry off dairy cows, uproot truck farms, destroy many persons and destroy property worth millions.

"Somebody doesn't want it to rain," Mayor O'Dwyer said when he was served the upstate summons and complaint.

New York has appropriated \$4 million for a six-month rain-making plan in man-made rain. It hoped Dr. William F. Hoar, a Harvard meteorologist, to lead the "rain-stimulation" project.

3 Separate Attempts To Woo Russ into UN

By Bruce W. Munn
Exclusive to the Bulletin

LAKE SUCCESS, N.Y., March 23.—(UPI)—Three separate campaigns to bring Russia back into the United Nations as a step toward ending the cold war were underway today.

UN circles were optimistic because of secretary of State Dean Acheson's recent welcome to the re-entry of the Soviet Union to the United Nations for a fullness secretary of State Acheson.

Such a council meeting which probably would be held in London or New York and would be attended by as many foreign ministers and chiefs of state as possible, is provided for in the UN charter, which specifies that "permanent" members shall be held. None ever has been convened.

THREE SEPARATE EFFORTS

The three campaigns aimed at Russia's return were:

1. A suggestion for a periodic council meeting.
2. Support by the U.S. and Canada for a special assembly to discuss the Chinese issue and the situation in the Far East.
3. Efforts by the British delegation to swing two more votes to the Chinese Communists to gain the permanent tally required in the security council to oust Chiang Kai-shek's Nationalist delegation.

IN HALF CENTURY

Great Expansion In Canada Economy

By J. V. Boyer
President, Canadian Bankers Association

MONTREAL, March 23.—(CP)—The first 50 years of the 20th century saw a truly remarkable expansion in the Canadian economy. If we have faith in our country and its destiny and have the wisdom to follow the same economic laws and principles that guided us in the first half of the century, there is nothing to prevent us from attaining still greater stature and a still more abundant life.

Fifty years ago Canada was a child compared to her status today. Her income, total bank deposits in January, 1900, were \$300,000,000. On Sept. 30, 1949, they touched \$3,015,000,000. Current loans, a measure of commercial activity, were \$300,000,000 at the turn of the century compared with \$2,000,000,000 on Sept. 30, 1949.

Securities held by banks totalled \$1,000,000,000 in 1900 and \$1,463,000,000 in 1949. The banking figure demonstrates the remarkable growth of the Canadian economy in 50 years.

The increase stems from many causes among them being the opening of the west, the gradual industrialization of the country, the discovery and development of mineral and forest wealth—all combining to create jobs, distribute wealth and produce a standard of living no worse than second among the nations of the world.

ALBERTA OIL

I expect to see, in the next 50 years, steady, perhaps spectacular, growth of the Canadian economy. The oil fields of Alberta, uranium deposits in Quebec and the iron mines of Labrador and Ungava should remind us that we still have great raw material resources to develop and turn into jobs and wealth.

It should be borne in mind, however, that Canadian prosperity depends largely on world markets. We cannot isolate ourselves from outside influences and events. The rise of Hitler and Germany, the rise of Lattimore and Ungava should remind us that we still have great raw material resources to develop and turn into jobs and wealth.

Alexander the Great conquered Greece, Asia Minor, Persia, Egypt and part of India from 334-323 B.C.

Top Defence Officials Meet

WASHINGTON, March 23.—(UPI)—Gen. Omar N. Bradley, chairman of the joint chiefs of staff, and other military leaders left for The Hague today to go over mutual defence plans with military leaders of other Atlantic pact nations.

The defence department said plans completed thus far call for each nation to take over part of the overall program according to its geographic location, abilities and resources.

LOOKING AHEAD

Looking back for a moment, one of the highlights of the last 50 years, from a straight financial point of view, was the creation of a security market here in Canada. Until the First World War, Canada looked abroad, chiefly to London, as a source for capital and were not, themselves, substantial buyers of bonds and stocks. No, even \$5,000,000 had been subscribed in Canada until Sir Thomas White, the minister of finance, launched the first war loan in 1915.

YOUTH GUILTY In Car Theft

VANCOUVER, March 23.—(CP)—Grand George, 30-year-old radio technician, listed by police as a member of a country-wide stolen car ring, yesterday pleaded guilty to a theft charge. He was remanded in custody.

He told the court he knew nothing about the sale of six cars stolen from Vancouver in the last six months and sent in Victoria, Edmonton and Calgary.

MOST OILS IMPORTED TO MAKE MARGARINE

OTTAWA, March 23.—(CP)—Canadians ate 71,962,000 pounds of margarine in 1949.

At least 75 per cent of the fats and oils used in its manufacture were imported, the Commons was told yesterday.

A government statement disclosed that a total of 60,074,330 pounds of oils and fats was used in the production of margarine.

Canadian consumption of butter in 1949 fell to 315,338,000 pounds from 370,153,000 in 1948.

APRIL MEETING

Mr. Bradley, who also is chairman of the Atlantic Pact military committee, emphasized that this does not mean that European nations would be expected to bear the brunt of early attacks alone, or that American forces would be limited to any certain areas.

He said the specific plans only cover primary units which would be assumed until the full force of all the democracies in the defence partnership could be brought into an integrated plan.

New Firm Formed To Probe For Oil

\$10 Million Capital Listed To Get Into Alberta Hunt

TORONTO, March 23.—(CP)—Great Plains Development Co. of Canada, Ltd., has been formed to prospect for, acquire and develop oil and natural gas reserves in Canada.

The company today filed a registration statement with the Securities and Exchange Commission in Washington and it is proposed to offer securities simultaneously in Canada and the United States.

The issue will be for \$10,000,000 notes due April 1, 1955, and 50,000 shares of capital stock, with each unit consisting of a note in the principal amount of \$1,000 Canadian funds, and 50 shares of capital stock.

Each note will carry a non-detachable subscription warrant to purchase an additional 50 shares of capital stock at \$10 a share. The offering price will be fixed by amendment.

BOTH COUNTRIES

The notes will bear interest at one per cent a year for the first two years, rising to four per cent in 1955 and continuing at that rate.

The Canadian group of underwriters is headed by the CIBC, The Bank of Montreal, The Bank of Nova Scotia and Sons, and the United States group by Dominick and Tishman and Kipper, Peabody and Co.

Tingle Tingles

COLUMBIUS, Ga.—(UPI)—Dr. J. H. Tingle is a chiropractor here.

Pilot's Legs Both Frozen

Exclusive to The Bulletin

CLE ELIUM, Wash. March 23.—(UPI)—A 30-year-old civilian pilot was hospitalized today with frozen legs, shock, contusion and other injuries suffered during an 80-hour ordeal in the rugged wilderness of the Cascade mountains.

Victor C. Roberts was rescued from the frozen mountain yesterday by a Coast Guard helicopter. The Spokane, Wash., businessman had spent three days and three nights in the wild, snow-bound country after his light plane crashed on a flight from Spokane to Seattle.

Roberts was (no weak to talk last night. Lt. Wallace L. Boyd, a member of the Coast Guard helicopter. The Spokane, Wash., businessman had spent three days and three nights in the wild, snow-bound country after his light plane crashed on a flight from Spokane to Seattle.

Boyd said that when he asked Roberts if he had eaten, he answered pilot replied: "ate snow." Those were the only words Roberts said.

The BAY Look what's under our Easter bonnet!

New Spring Dresses Low Priced for Easter 13.95

Attractive crepes and jerseys as well as tissue failles and crepes in plain shades. One and two-piece styles with pleated and gored skirts. Some with detachable pique collar and cuffs — others with contrast trims. Sizes 12 to 20 and 16½ to 24½.

Ton U.K. Scientists

Shun Super Bomb

Association Scorns Necessity For Hydrogen Bomb Making

By Jack V. Fox
Exclusive to the Bulletin

LONDON, March 23.—(UP)—Two British atomic scientists said today they would refuse to develop a hydrogen super-bomb because it is "too disgusting."

Another called on the Atomic Energy Commission and the Western European Union to withdraw from the hydrogen bomb race and demand universal disarmament.

A fourth said the world's brightest hope is that the H-bomb will never be made, but that, if it is, it should be used only in a last resort.

The four statements were among 13 issued today by the Atomic Scientists' Association of Britain. The Association includes scientists who have worked with Dr. Klaus Fuchs, formerly Britain's fourth ranking atomic scientist, who is serving a 14-year prison sentence for betraying Atomic Energy to the Soviet Union.

MEETING SCORNED

In an editorial accompanying the statements, the Atomic Scientists' Association said it was difficult to see what would be gained from a military standpoint by developing the H-bomb because the atomic bomb can destroy almost any strategic target.

It also saw little value in a meeting of the heads of Russia and the United States on the H-bomb question.

The editorial said the "only way in which war can be avoided is for both east and west to become convinced that it is possible for them to live side by side, if not in amity, at least with some degree of mutual tolerance."

Prof. Kathleen Lousdale of University College, London, and Dr. G. O. Jones of Clarendon Laboratory, Oxford, said they would not work on a hydrogen bomb.

If, personally, am asked to help in developing a super-bomb, Jones said, "I shall say, 'No, I am sorry, it is too disgusting.'"

Tory To Present

Mace To Nfld.

VICTORIA, N.C., March 23.—(UP)—Prime Minister Herbert Asquith who is leader of the Progressive Conservatives in B.C. and acting premier has been given the honor of taking B.C.'s gift mace to Newfoundland.

Asquith announced in the legislature that Premier Byron Johnson, now in London, England, has asked him to go to St. John's, Newfoundland and present the mace to the new provincial house.

The presentation is scheduled for April 5.

The first label for postage was produced for the British Post Office in 1840.

Sex Slayer

Hangs In June

VANCOUVER, March 23.—(AP)—Less than two hours after having been sentenced to die June 30 for the murder of a British Columbia woman, a man was sentenced to hang last night at Okalla Prison.

Immediately he was sentenced to the gallows by Mr. Justice A. M. Munson, Durnham said.

"The woman whose body I took from the water was still alive. I took it and put it in my mouth, waiting till five o'clock in the morning."

"Only I know what happened that particular night. I have solved that part of the mystery."

I still say I am not guilty."

Previously, Miss Fisher filed from his automobile across a bridge and fell into the darkness. Never admitted recovering the body from the creek.

EDMONTON PUBLIC SCHOOLS

Whom Cough and Vaccinations

The Edmonton Public Schools Board will give free immunization of age may be brought to the school at any time during the year. There will be three in the schools and at times on Saturday, March 26, and 27, and will be given to all children in the city.

Quebec Minister Lauds

Provincial Security

By the Canadian Press

Labor Minister Antonio Barrette says Quebec has no lessons to learn about "social justice" but it can give them.

He told the provincial legislature yesterday, during a review of the government's labor record for the last five years, that "it is in Quebec that social justice is practiced."

He referred to "Christian Social Justice" which he said is the basis of a collective national policy by the Roman Catholic archbishop.

"People may come to take lessons here, but let no one come to take lessons from us," he said.

Quoting figures on wage increases in Quebec province since the last election, he said that the average increase was 10 per cent.

In the Nova Scotia legislature, Robert L. Stannard, Progressive Conservative opposition leader, rebuked the province's Liberal government for what he called an "attitude of helplessness" in the face of rising unemployment.

NO MOTION MADE

In the New Brunswick legislature, Premier McNair said the government plans to impose a consumer tax on goods sold at retail level but did not mention the tax rate.

In the Newfoundland legislature, D. J. Jackson, Progressive Conservative, said that Canada is "only a satellite of the United States and Newfoundland just a puppet of Ottawa."

He criticized the government for "a policy of inaction" and blamed Newfoundland's unemployment on Confederation.

BLAMES CONFEDERATION

Also president of the United Steel Workers of America (CIO-CIL) local at Bell Island, he said Confederation was "a disaster."

Far East Seen

As Wheat Market

LIBERAL, Kas, March 23.—(AP)—More than 190 University of California professors have voted against employment of any Communist on the faculty.

At the same time, they overwhelmingly rejected a special anti-Communist order by the state board of regents on a basis of sign by April 30 or quit.

That the controversy, which has drawn reactions, comments and protests throughout the United States, may be headed for settlement was immediately suggested by the regional chairman.

Save \$100.00 On a Two-Piece Chesterfield Suite!

Slight Imperfections in Upholstery

Here is a big opportunity for thrifty Friday shoppers! Smart, modern style two-piece chesterfield suites that will add charm and comfort to your living room! Large arm, three cushion chesterfield and matching chair covered in loop-type plain cotton frieze. These suites have been used as floor samples and so are slightly soiled, also there are slight imperfections in the upholstery weave, but these should not detract from their service nor appearance. EATON'S FRIDAY FEATURE, TWO PIECES
